Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner called Mr. Battison to resolve two discrepancies in the application. First, the amendment to the specification, filed 9/7/04, listed the serial number of the related application as being the same serial number of the instant application. Second, the brochure listed on the IDS filed 9/7/04 was not in the application file. By fax response, Mr. Battison advised the examiner that the correct serial number for the related application should be 10/617889, and Mr. Battison included a copy of the brochure. .
